

Tyler

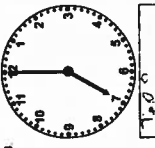

Be a Clock Wizard Goal: I can tell time to the hour.

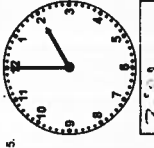

Print the time for each clock.

  
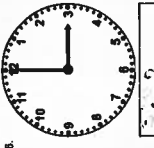

1. 1:00

  
2. 2:00

  
3. 3:00

  
4. 4:00

  
5. 5:00

  
6. 6:00

http://www.houghtonmifflin.com Score: 16

Learning Goal: I can write a riddle.

Ryder

I can moo.  
I have black spots.  
I have a pink nose.  
What am I?

Ryder Room

Raden and Ryder have six marbles at home. Tyler has five more at his home. How many marbles do they have altogether? What do you think? How do you know? Explain your thinking.

$$6 + 5 = 11$$

$$\begin{array}{r} 6000 + 5000 = 8800 \\ 0000 + 0000 = 0000 \end{array}$$

6 + 5 = 11  
so 11 marbles altogether.

Kyla

### Writing- Explanatory

Goal: I can write an explanatory piece.

Explain who is your best friend and tell why?

Opening Sentence:

My best friend is Amaya.

Reason 1:

She is my best friend because she is nice and helps me out when I get hurt at recess.

Reason 2:

She is funny because when she tells jokes everyone laughs.

Closing Sentence:

I like having Amaya as a best friend.

Sayd

Dalton and Sayd have 20 hockey pucks that they brought to school. They gave 11 away to their friends. How many hockey pucks do Dalton and Sayd have left? What do you think? How do you know? Explain your thinking.

$$20 - 11 = 9$$

$$\begin{array}{r} 20000 - 11000 = 9000 \\ 00000 - 00000 = 00000 \end{array}$$

I drew 20 pucks and I crossed out 11 hockey pucks. There are 9 left.
